Summary:

- As a radiologist technician with experience in HTML, CSS, and JavaScript, I am looking to transition into the role of front end developer junior. In this role, I will be able to use my skills and knowledge to create user-friendly and visually appealing websites and applications. This will be similar to my current role, where I use my expertise to produce clear and accurate images for doctors to use in diagnosing and treating patients. With my strong understanding of the tools and techniques used in both fields, I am confident in my ability to excel as a front end developer junior.

Technical Skills:

Programming Languages:	Dart, JavaScript, flutter, HTML and CSS (SASS).
Cloud:	Microsoft Azure
Software:	VSC, Google Workspace, MS Office.
Methodologies:	Scrum
Languages:	Spanish, English

Professional Experience:

LAUNCH X

09/2022 - 12-2022

FULLSTACK DEVELOPER, FRONT-END AND BACK-END

- Strong experience with HTML, CSS, and JavaScript, and a proven ability to create user-friendly and visually appealing websites and applications.
- Familiarity with common front end development frameworks like React and a willingness to learn new technologies as needed.
- Excellent problem-solving skills and the ability to work independently or as part of a team to find creative solutions to complex challenges.
- A passion for creating beautiful and intuitive user experiences, and a commitment to staying up-to-date with the latest trends and best practices in front end development.

CRUZ ROJA MEXICANA I.A.P.

10/2021 - Present

RADIOLOGIC TECHNOLOGIST

- Strong understanding of the latest imaging technologies and techniques, and the ability to use them effectively to produce clear and accurate images.
- Excellent communication and interpersonal skills, with the ability to work closely with patients, doctors, and other healthcare professionals to provide exceptional care.
- Thorough knowledge of radiation safety protocols, and a commitment to ensuring the safety of patients, staff, and the general public.
- Extensive experience working as a radiologic technologist, with a proven track record of producing high-quality images for use in diagnosing and treating patients.
